REMARKS

The figures of births and deaths shown in this statement for week ending the 13th August, 1955 relate to 189 towns with an estimated population of 26,093 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 63% of the total number of towns representing 67% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 18,623 and 7,016 representing birth and death rates of 37.1 and 14.0 per thousand of population respectively.

(a) States (Parts A and C).—The data here relate to 154 towns with an estimated population of 21,414 thousands. Information about Ajmer, Bihar, Madhya Pradesh and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 61% of the total number of towns representing 66% of the total population is covered. The

number of births and deaths recorded in these towns were 16,283 and 6,070 representing birth rates and death rates of 39.5 and 14.7 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) States (Part B).—The data here relate to 35 towns with an estimated population of 4,679 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 73% of the total number of towns representing 73% of the total population is covered. The number of births and deaths recorded in these towns were 2,340 and 946 representing birth and death rates of 26.0 and 10.5 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
